

PhD position available

Functional Neurogenetics: Mechanism of neurodegeneration in the group of Prof. Philipp Kahle

We are looking for highly motivated candidates holding a Master degree - University or Applied University (FH) - in biology, biochemistry, molecular medicine, cell biology, biophysics, or a similar program.

The PhD student will join our DFG funded Research Training Group (RTG):

MOMbrane: The multifaceted functions and dynamics of the mitochondrial outer membrane (MOM)

The aim of our RTG is to achieve comprehensive understanding of the structure, function, regulation, and biogenesis of the mitochondrial outer membrane. We employ a multidisciplinary approach including disease models, molecular cell biology, proteomics, biotechnology, and biophysics.

We offer:

- Highly interdisciplinary research
- Cutting-edge technologies
- Structured qualification program including workshops, retreats, soft-skill courses, internships, international co-operations, conferences and many more
- Salary E13 (65%) for at least 3 years

For additional information please refer to our homepage:

<https://www.mombrane.de/>

Deadline for applications: January 31th, 2022.

Starting date: from March 2022

Please send your applications including your research preference, the usual documents and the names of two referees in one pdf-file to

grk2364-application@mnf.uni-tuebingen.de
